Portfolio Manager's Report

The interest by investors in productive wind farms and therefore the attractiveness of the Fund is still unbroken. After receiving several offers, the sale of the wind farm Kaiserslautern in Rhineland-Palatinate was successfully closed in February. After a holding period of approximately two years, a rate of return on equity of 72% was achieved. This result demonstrates the prudent purchasing strategy, the conservative evaluation of the Funds' wind farms and the effective asset management.
